PROFILE

Hello, my name is Adonis Pineda and I'm a senior Cybersecurity student at Charleston Southern University. I've always had interest in technology since a child playing with C++, but it wasn't until my computer was infected with a virus that my focus shifted towards security. .

I am currently working on a cross-API online security auditor and enjoy finding bugs and flaws in systems, as I am fascinated with how a software handles unexpected events.

EXPERIENCE

○ Tire Service Technician

Gatu Tires February 2020 to Present

I have experience with tire installation, repair, and maintenance, as well as other facets of the automotive industry

- expected to serve customers and be personable
- manage time and tasks to complete work efficiently
- stress value in maintenance and diligently detect issues

○ Author/Writer

Published Author 2016 to Present

I make many creative works for personal entertainment and commissioned, and published a book

- editing business captions and managing social media
- transforming ordinary statements into moving words
- tactfully phrasing letters and speeches for events
